

MS15X-XY Base

The MS15X, X-Y axis base with detachable 360 degree rotating table is designed for use with all sorts of applications that require fine examination in an X- and Y-axis movement. The MS15X can also do examinations that require 360 degree rotation of a specimen with the included 360 degree rotating table.

The MS15X can also be conveniently attached to a MS35B or MS36B desktop stands with the included C-Clamps.
