Exposure Routes and Symptoms Summary

Eyes Causes eye damage. The adhesive contains mechanically abrasive

particles.

Skin Causes skin irritation. May cause allergic skin reactions.

Inhalation May be harmful if inhaled. Material is destructive to the tissue of the

mucous membranes and upper respiratory tract.

Ingestion Harmful if swallowed.

Chronic Prolonged and repeated exposure to the uncured material used may cause

sensitization, asthma, and eczemas.

Long term accumulation of silver can lead to Argyria, which is an

irreversible blue-grey discoloration of the skin.

In case of fire	P370	
Response	P378: Use dry chemical, carbon dioxide, or chemical foam to extinguish. Use water spray to cool containers.	
	COUNTER INDICATION: Material can form a very toxic aqueous solution with water. Prevent run-off from entering drains and waterways.	
Combustion Products	Produces CO_2 , ammonia, nitric acid, nitrogen oxides and other toxic fumes and smoke.	
Fire-Fighter	Wear self-contained breathing apparatus for fire fighting	
General Information	Toxic metal fumes may be released in fire. In presence of strong oxidizers and air, the silver metal powder may lead to an explosion.

Section 6: Accidental Release Measures

Personal Protection: See Section 8. Wear protective clothing. Avoid breathing the mist/vapors.

Containment Remove all sources of ignition.

Cleaning

Collect spill in a sealable, chemical-resistant container with a spatula. Sprinkle inert absorbent compound onto spill remainder, then sweep into the container. Wipe residues with paper towel imbibed in isopropyl alcohol and place dirty towel in container. Wash spill area with soap and water to remove the last traces of residue.

RECOMMENDATION: Use a plastic, stainless steel, or carbon steel container. Avoid containers with copper, aluminum, zinc, or galvanized surfaces since the waste material can slowly oxidize them.

Disposal Dispose of spill waste according to Section 13.

consider using a full mask with organic vapor cartridges.

Personal Protective Equipment

Eye protection Wear appropriate protective eyeglasses or chemical safety

goggles.

RECOMMENDATION: Use safety glasses with lateral protection

(side shields).

Skin Protection Wear appropriate protective clothing to prevent skin contact.
